Global Collaboration

- WHAT we are covering
- WHY we are covering it?
- WHY us?

Global Collaboration

- HOW MANY users of Social Media are there?
- WHAT is out there for supporting “diverse learners”
- HOW to keep track and make sense of it all

Global Collaboration

- Not a “how to” session
- NO MORE bullet points
- PROMISE!

WHY YOU SHOULD BE PLAYING WITH GOOGLE+ NOW

Google+ reminds me of another social network that started up not so long ago. I remember when I created an account and would talk to people about the service they would shake their head, roll their eyes and then say, "You're such a geek."

And, at the time they were right. There was nobody using the service except a bunch of geeks. Geeks trying to figure out how to use the service, did it have a place in our network? How did it work? What was the best way to use it? What did it replace and what did it enhance?
